

This workshop is suitable for those required to manage safely and effectively in compliance with both their company's policy and best practice in health and safety. It is suitable for any person who has supervisory or management responsibility for health, safety and the environment, particularly those with little or no previous relevant training.

## **COURSE CONTENT**

Tailored to the needs of our industry's sectors, this module is also accredited by IOSH for the Managing Safely award.

### **You will learn about:**

- Legal Frameworks - The Supervisor's legal requirements and accountability for health and safety.
- The roles of the safety representative and the safety committee.
- Risk Assessments and control - the importance of risk assessments and how to prepare them.
- Managing Health and Safety - the principles of managing HSE and measuring performance.
- Accident and Incident Investigation - techniques for investigation and how to prepare meaningful recommendations.
- Hazard identification
- Protecting the environment - measure implementation to control industrial and commercial impacts on the environment and the importance of Environmental Management Systems.

## **COURSE DELIVERY**

1. IN-HOUSE - (at your location - minimum numbers may apply). This is usually a four-day course.
