

This programme is delivered in partnership with The Engineering and Construction Industry Training Board (ECITB) and covers all the competencies detailed in the National Occupational Standards (NOS) level 3 competency framework.

## LEARNING OUTCOMES

On completion of this course participants will have covered all the content required to meet the **NOS level 3 competency framework** knowledge areas.

The competency areas are classified within these units:

- 'Using Technical Skills'
- 'Working with People and Managing Yourself'
- 'Developing the Project'
- 'Project Implementation'
- 'Closing Out the Project'

## TRAINING METHOD

This course is highly interactive and demands the full participation of the delegates to ensure they receive the maximum benefit.

The use of the case study contextualises the learning through the use of participative exercises that increase the retention of the knowledge gained.

## COURSE DELIVERY

1. CLASSROOM (Open course schedule).
2. IN-HOUSE - (at your location - minimum numbers may apply).

## **COURSE CONTENTS**

The course is organised into 17 units which are titled:

- Teamwork and Meetings
- Project Overview
- Organisation Structures
- Project Initiation
- Risk Management
- Document Control and Configuration Management
- Estimating
- Work Content and Scope Management
- Procurement
- Contracts
- Planning and Resource Management
- Budget and Cost Control
- Project Monitoring and Control
- Construction and Jobsite Management
- Quality Control
- Project Acceptance
- Accreditation

## **OVERVIEW**

This programme is delivered in partnership with The Engineering and Construction Industry Training Board (ECITB) and covers all the competencies detailed in the National Occupational Standards (NOS) level 3 competency framework.

The course focuses on practical aspects of delivering projects, focusing on all the key specialist tools techniques and processes required to have proper control over a project and its progression.

The content extends through the use of an engineering based case study to provide a deeper perspective, facilitating an understanding of the reasons for their use as well as the benefits of doing so.
