### Who Should Attend?

Ideal for those driving successful change, this foundation certification suits strategic planners, performance managers, auditors, procurement professionals, and others seeking to enhance benefits management.

### Virtual Classroom Delivery

Engage in 3 days of virtual learning, delivered via Adobe Connect. Ideal for those who prefer the flexibility to learn from home or in any personal space, guided by expert facilitators.

### Course Content

#### Build Expertise to:

- Understand benefits management definitions, objectives, and barriers, along with key success factors
- Apply principles for effective benefits management
- Master the five practices of the Benefits Management Cycle and their techniques
- Define key roles, responsibilities, and essential benefits management documentation
- Implement and sustain benefits management practices effectively

### Exam Details

This course includes an online multiple choice exam, taken over 40 minutes. The exam consists of 50 questions, and a minimum score of 25 marks is required to pass.

### What our customers say...

#### Great learning experience

*"very well-led and informative. Information is presented in an excellent manner. Course presenter made sure to make everyone feel invested and comfortable at the same time."*
