Lead agile projects with confidence, clarity, and impact.

AgilePM® Version 3 is the world's leading agile project management certification, designed for the full project lifecycle.

Overview

AgilePM® Version 3 is the world's leading agile project management certification, designed for the full project lifecycle. Built for today's dynamic environments, it helps project professionals deliver real value, manage change, and scale agile practices across teams and organisations. Whether you're a seasoned project leader or building your agile credentials, AgilePM® v3 equips you with the practical tools to thrive in complex project settings.

Familiarise yourself with the DSDM Agile Project Management framework, offering a repeatable, practical approach that blends the rigour of traditional project management with the speed and flexibility of agile methods. Embrace SCRUM as the product delivery engine, bringing iterative, team-led development into harmony with AgilePM®'s strategic project-level guidance.

Beginner Level Course

£1,745 + VAT

APMG Accredited

Gain skills to:

Who Should Attend?

Perfect for project managers, team leaders, and professionals looking to boost collaboration, delivery speed, and adaptability. Ideal for hybrid, remote, and enterprise-scale environments. Start with the foundational principles and advance to practitioner-level expertise to fully harness the power of AgilePM®.

Virtual Classroom Delivery

Engage in 5 days of virtual learning, where you will cover both the Foundation & Practitioner level, delivered via Adobe Connect. The first 3 days of learning will focus on the Foundation qualification and the last 2 will focus on the Practitioner.

Key changes in AgilePM v3

- Enhanced learning and assessment experience with interactive simulations and improved tools and techniques for more effective learning outcomes.
- Focus on delivering value over merely delivering project outputs, ensuring meaningful business outcomes.
- Empowering project managers to become leaders in their projects, shifting from traditional management to inspiring leadership.
- Integration of Scrum to enhance project delivery effectiveness, using it as the core engine for product delivery.
- Better strategies and support for managing projects with multiple teams, providing enhanced guidance for coordination and collaboration.

What our customers say...

Amazing training experience

"The experience was great from start to finish, the structure of the course was clear and easy to understand."

Trusted Customer - 6th Oct. 2023

High quality & maximum support

"I looked around for a Project Management course online and was eventually recommended 20/20 as a provider..."
