This course explains how to prepare for and run an agile project, highlighting documentation, techniques and roles and responsibilities.

Overview

AgilePM Foundation introduces the DSDM Agile Project Management framework, a pragmatic and repeatable methodology. AgilePM training and certification is based on the AgilePM Handbook, published by the Agile Business Consortium. The Handbook offers a practical and repeatable methodology that achieves an ideal balance between the standards, rigour and visibility required for good project management, and the fast-pace, change and empowerment provided by Agile.

The AgilePM Practitioner certification is for those who have passed the Foundation exam, it's objective is to transition learners from understanding the framework to applying it effectively. It is designed for professionals in project focused environments who want to be agile.

Why Learn with 20/20?

As the largest independent provider of project management training in the UK, we are here to support and guide you through professional training. 20/20 care about your development as a project professional and will help you and your team achieve new qualifications.

Who Should Attend?

The AgilePM foundation & practitioner course is designed for project professionals and team members wishing to adopt a flexible, collaborative approach to project management, whilst improving standards, quality and pace of delivery. This course is aimed at Agile team members who want to become Agile Project Managers.

Course Content

The programme will cover the following topics:

- The underpinning philosophy and principles of Agile.
- The lifecycle of an Agile project, including alternative configurations.
- The products produced during an Agile project and their purpose.
- The techniques used and their benefits and limitations.
- The roles and responsibilities within an Agile project.

Virtual Classroom Delivery

This 5-day virtual classroom course is a fully immersive and interactive experience. Each day, a single session spanning from 9 am to 5 pm ensures focused learning. Taught by a fully qualified facilitator, it will equip learners with the tools they need to increase the chances of project success.

What our customers say...
