Build the core skills to manage agile projects with confidence.

AgilePM® Foundation introduces you to the world's leading agile project management framework - designed to deliver real value, adapt to change, and scale with ease.

Overview

AgilePM® Foundation introduces you to the world's leading agile project management framework - designed to deliver real value, adapt to change, and scale with ease. Based on AgilePM® Version 3 and the DSDM methodology, it provides a structured, practical approach to managing agile projects across their full lifecycle.

SCRUM is introduced as the delivery engine, showing how iterative, team-based work complements AgilePM®'s project-level control and governance.

Gain skills to:

- Understand AgilePM® principles and how they drive meaningful outcomes
- Recognise agile roles, responsibilities, and governance structures
- Apply key techniques to manage agile projects effectively
- See how AgilePM® and SCRUM integrate to support full lifecycle delivery

Who Should Attend?

Ideal for project professionals, delivery teams, and aspiring agile leaders seeking a flexible, value-driven approach to project management. Foundation certification is a prerequisite for AgilePM® Practitioner.

Virtual Classroom Delivery

Engage in 3 days of virtual learning, delivered via Adobe Connect. Perfect if you enjoy flexible learning, while still benefitting from live, interactive sessions with experience facilitators. This course includes an online multiple choice exam, taken over 30 minutes.

Key changes in AgilePM v3

- Enhanced learning and assessment experience with interactive simulations and improved tools and techniques for more effective learning outcomes.
- Focus on delivering value over merely delivering project outputs, ensuring meaningful business outcomes.
- Empowering project managers to become leaders in their projects, shifting from traditional management to inspiring leadership.
- Integration of Scrum to enhance project delivery effectiveness, using it as the core engine for product delivery.
- Better strategies and support for managing projects with multiple teams, providing enhanced guidance for coordination and collaboration.
