- / Recognised Assessment for ChPP (Route 1)
- / Online and Virtual Classroom

## How is the Qualification Assessed?

There are three elements to the APM Project Professional Qualification, and these are based on a pre-seen case study. The elements will address the assessment criteria detailed in the syllabus.

**1- Scenario Assessment:** The scenario assessment is a role play situation, with one of the assessors taking on a specific role and the candidate taking on the role of project manager. The assessment is based on a new event/information which will impact the project detailed in the pre-seen case study. You will have 10 minutes preparation time and 20 minutes for the scenario role play.

**2- Oral Exam:** The oral exam will be conducted by two assessors and will last 50 minutes. All questions will need to be answered as though you were managing the project detailed in the pre-seen case study.

**3- Project Report:** You will need to produce a project report as detailed in the question you are given. The project report will be based on the pre-seen case study. You will have one hour to produce the report online; this will be invigilated, either by a training provider in a classroom or remotely.

## Price for Blended Support Package:

/PPQ Qualification Development, Preparation & APM Assessment- **£2,550 +VAT**

## Online Support Package:

We also have a self-paced support package available for those that would like to work through the content in their own time and at their own pace.
